

Marine

Jalna Marine Services hire safety boats and work boats – based in the North East of England we have the capability to offer full north east coast coverage.

Our vessels are all coded to MCA certification and maintained to the highest standard. With hydraulic man over-board recovery systems, light work boat coding to carry deck cargo of 1000kg and reliable Honda Marine outboard engines and electrics.

Jalna Marine Services and Jalna Construction have the capability to provide a range of marine, offshore & subsea engineering services, all water-side projects such as wharf ladders, dolphin berth repairs and quayside repairs.
